

PADADONTAL COMPETITION

I.I.S. L. S. PICCOLO
OF CAPO D'ORLANDO

The Paradontal Section of IIS LS Piccolo of Capo d' Orlando, on the 29^o February 2016, took part in the «8th Mediterranean Trophy: Competition for Paradontal Modelling», at I.P.I.A. «Enrico Fermi» Aragona in Agrigento, Sicily.

The Trophy was a very important Prize to promote and reward the Excellent Students in the Paradontal Schools of Sicily Region

For the first time this year, two students of our school, Chiara Mangano and Andrea Abruzzese, of the 4° A Paradontal Class, tutored by Teacher Francesca Privitera, had the great opportunity to compare themselves with their peers and with different real school situations, thus enriching their human, cultural and practical background.

Chiara Mangano

Andrea Abruzzese

This experience was a very special occasion to bring a new light to the Paradontal Section of IIS LS Piccolo of Capo d'Orlando, since it has been working in the Sicilian territory for few years so far.

It is really worth studying hard to achieve a goal in life

It is worth studying hard to become good «*Smile Technicians*»

Since just in the smile we find the laws of Chemistry, Maths, Physics
and the Science of Life. After all,

«Smile is the sun that moves winter away from human face»

(VICTOR HUGO)
