- 20) Organization of dissemination and survey activities to the students involved in the Math Task and in the Science Lesson
- 21) Planning of the second “90 MINUTES CHEMISTRY LESSON” with teachers Bontempo, Sottile and Aglio

22) Planning of the third “90 MINUTES PHYSICS LESSON” with teachers Randazzo, Caruso and Aglio

23) Detailed organization of the Second Teachers’ Meeting in Capo d’Orlando:
Realization of

- a. Official meeting Schedule
- b. Official Invitation
- c. Information Communication with Town Major, Tv Broadcasting Network “Antenna del Mediterraneo”

GOALS ACHIEVED

The first period of Erasmus Project has been really productive and motivating for all the components involved: Headmistress, Teachers, Students and Parents. The title of the Project has deeply increased:

- intellectual curiosity,
- scientific attraction,
- will of challenging researches,
- desire of group and team work,
- problem solving frame of mind
- ambition of fulfilling didactic and meta-cultural objectives.

All the project group has tried to educate the students to:

- ✓ awareness of the importance of the European dimension;
- ✓ respect of the others in a daily well-built context of mutual understanding;
- ✓ open minded disposition to the knowledge of other cultures and traditions
- ✓ importance of synergetic team work in order to achieve common goals;
- ✓ willingness of overcoming personal and social limits
- ✓ interpretation of the reality in a scientific key starting from the assumption that the rules of Maths, Physics, Science, Chemistry and Biology are the basis of life

- ✓ implementing the interdisciplinary ability for the resolution of real and concrete problems
- ✓ Gradual improving of mental skills and reasoning abilities
- ✓ Relational, comparative, interactive synergy work
